#### Barefoot Bowls

### Jack Attack

Jack Attack is Bowls Australia's social-competitive version of bowls which can be enjoyed by new and experienced players. It's a fun, fast and fresh style of play, which is taking place at clubs across Australia.

Jack Attack appeals to people who are looking for a more structured bowls competition than barefoot bowls, but don't have the time to commit to longer formats of the game. The game is a four to six-week competition, staged on a midweek evening.

Jack Attack emulates the Bowls Premier League style of play which is broadcast live on Fox Sports and Sky Sports NZ each February and November.

The event is open to everyone, including businesses and organisations wishing to enter a team. The emphasis is on having fun with up to \$1,000 prize money, pending number of teams entered. The evening is a hoot while listening to great music and mingling with members of the community.

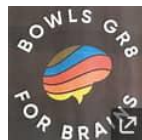

For more information contact the club's Bowls Organiser: Steve McMahon 0409 449 686.

### Bowls Gr8 for Brains

Bowls Gr8 for Brains focuses on four key elements of improving mental health, those being physical exercise, re-integration into social environments, stimulating brain functions and engaging in programs that divert attentions away from previous trauma, with a peer-supported community-based program that runs at local bowls clubs.

"Bowls Gr8 for Brains is proud to be a part of the Bowls Australia family."

### Etiquette

Lawn Bowls has a set of concrete rules, but like cricket, it also has a softer set of guidelines.

Etiquette simply means displaying good sportsmanship based on the traditions of the game. Applying common sense goes a long way to displaying good sportsmanship.

Here's a guide to some of the finer points of lawn bowls etiquette:

1. Be on time for any game (social, club competitions or Zone events).
2. Switch off your mobile phone.
3. Be aware of the fundamental rules of the game and conditions of play.
4. Always greet your opponent at the start of the game.
5. Hand the mat and jack to your opponent at the start of play.
6. Commend good bowls and acknowledge fluky or lucky bowls.
7. Don't cheer your opponent's unlucky bowls as it is considered poor sportsmanship.
8. Avoid disturbing players on other rinks (don't walk onto their rink or make excessive noise).
9. Assist with kicking bowls back at the end of play.
10. Retreat from the head when bowls are being measured and don't offer your opinion.
11. Congratulate the winner and share a drink in the clubhouse.

Bowls is an inclusive sport, be sure to treat all opponents with the same respect that you would wish to be treated.

### Bowls NSW Ltd

Bowlslink, established in conjunction with Bowls Australia and all State & Territory associations with development and support by Savage Bull (web development agency), is the first purpose-built membership database and competition management system for Lawn Bowls administration.

The system allows club administrators to manage:

Club details; membership data; email campaigns; invoicing; competition entry, draws, results and management; website and more.

Additionally, individuals will be able manage their own profile data, view competitions entered and results as well as enter events, like State/District/Zone/Club Championships, directly.

### Individual Member Profiles

Having access to your own information and profile ensures that you control and can update personal details at any time.

Once your profile is activated, it will give you access to all your details.

To activate, you will need a valid email address associated to your profile.

If you have a shared email with another person (usually a family member), you can still access the system using a mobile phone number or your National Identity Number (NIN). Please note that only one email address can be used per profile to log in.

### Organisation Values

The core values of an organisation are the internal compass that will guide the actions of the organisation. These are attributes and behaviours that we expect all members, volunteers and staff to adopt and live by as they enjoy the sport.

The values of Bowls New South Wales Ltd are:

- **Respect:** We listen to each other and acknowledge there are many different perspectives which deserve consideration.
- **Collaboration:** We work together and assist our peers to develop and achieve our collective goals.
- **Honesty:** We raise issues as they are identified and discuss opinions and solutions openly.
- **Progressiveness:** We acknowledge and reflect on our past while continually searching for new opportunities to grow the sport.
- **Transparency:** We keep members, clubs and association committees informed and up to date.

### Bowling Delivery Technique

The following ten important points in the delivery technique will assist new players with developing good habits.

1. Weight toward balls of the feet, with knees relaxed.
2. Eyes focussed along the aiming line.
3. Forearm of the bowling arm running down towards the wrist.
4. Shoulder square to the line of delivery.
5. Allow the weight of the bowl to determine the backswing.
6. Take a normal walking step (knee of back leg close to rear of front leg).
7. Stepping as the bowling arm straightens at the bottom of the backswing for correct timing and co-ordination.
8. A firm straight arm as the jack or bowl is released.
9. Bowling arm finishing not much higher than the forward knee.
10. Stepping forward off the mat after the jack or bowl has been delivered and has travelled at least four metres.
